## WOKAM PAPER GETS STATUS OF "HIGHLY CITED"

The second paper of the WOKAM (World Karst Aquifer Mapping) project, promoted by our Karst Commission, has been classified as a "highly cited paper" by the Web of Science, a rare and prestigious award, according to the first author and former chairman of our commission, Nico Goldscheider.

This means that the paper has received enough citations to be placed among the top 1% of its academic field. This open access paper can be accessed at: <https://link.springer.com/article/10.1007/s10040-020-02139-5>

## **DEADLINE FOR SPECIAL ISSUE ON "ADVANCES AND FRONTIERS IN HYPOGENE KARST STUDIES" HAS BEEN EXTENDED**

Our colleague Alexander Klimchouk has announced that, due to the COVID situation, the deadline for this Special Issue of the Journal *Frontier in Earth Sciences*, has now been extended to December 11, 2020. Contributions are still welcome. For further information please check <https://bit.ly/3mB3Vmp>.

## **FORTHCOMING EVENTS - 2021**

### **SINKHOLE CONFERENCE**

The 16th Multidisciplinary Conference on Sinkholes and the Engineering and Environmental Impacts of Karst (known simply as "The Sinkhole Conference") is a traditional meeting that has taken place since the 1980's. In 2021 it will happen between April 12-16 in San Juan, Puerto Rico. There will be several short courses, field trips and presentations related to karst hydrogeology.

Further information can be found at: <http://www.sinkholeconference.com/>
